

# 3 Big Ways GMOs SUPPORT THE ENVIRONMENT

In the past 20+ years, the positive effect on the environment from GMO crops and the traits they express has been nothing short of extraordinary.

## GMOs foster sustainable farming practices

Conservation tillage reduced CO<sub>2</sub> emissions by **50.7 billion pounds** in 2018

That's like taking **13.6 million cars** off the road for a year.<sup>1</sup>

## GMOs let us grow more food on less land

**96 million tons** additional crop yield in 2018

conserving **59.7 million acres** of land.<sup>1</sup>

## GMOs build healthy soil

# LESS TILLING =

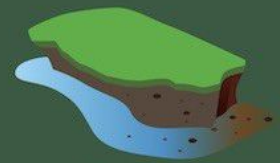

More Beneficial  
Insects

Increased Organic  
Material

Better Moisture  
Retention

Less Soil  
Erosion
